# Legal Document Firm Powers Client Relations With AI, Successfully Reviewing Contract Clauses

The Client is a top-rated AI powered contract and legal document analytics company.

## Challenge

Companies providing varied services have thousands of contracts with their customers, contractors, and employees to name a few.

- ▶ The Client's services offered include secure contract storage, and classification of contracts based on their various clauses
- ▶ They also help in identifying and analyzing keywords and terms in their customers' contract repository with the use of Artificial Intelligence (AI)
  - To identify and analyze keywords, the Client's AI needs to be taught the different contractual obligations and clauses used in a contract
  - The Client's AI needs to identify which contract runs for 2 years, and which one terminates at the end of 3 years. It needs to identify what the term clause in a contract looks like
  - There are numerous clauses in a contract ranging from Assignment Rights, to use of Customer Data, that the AI needs to understand and differentiate

## Solution

- ▶ LegalEase Solutions dedicated a team of Contract Law Review attorneys to review contracts based on the Client's manual
- ▶ The manual outlines instructions from the Client's customers on how each contract clause must be interpreted, as each contract varies greatly

- ▶ The LegalEase Solutions Contract Review Team reviewed various contract clauses including parties to the contract, Assignment, Limitation of Liability, Autorenewal, Warranty, Indemnification, and Publicity
- ▶ The LegalEase Solutions team adhered to strict QC measures to ensure that reviews were error-free
- ▶ LegalEase Solutions reviewed the Client's customers' legacy contracts and contracts that the Client's customers execute every day
- ▶ Legacy contracts are reviewed according to set timelines ranging from a few days to a few weeks, depending upon the volume of contracts
- ▶ LegalEase Solutions reviewed and delivered the Client's contracts in just 24 hours

## Results

- ▶ LegalEase Solutions helped the Client review close to 2 million contract clauses in over 500,000 contracts, for almost 70 of their customers
- ▶ The LegalEase Solutions team delivered the services in just 2.5 years
- ▶ Many of the terms that started out requiring human intelligence for interpretation are now reviewed by the Client's AI
- ▶ For many clauses, the LegalEase Solutions team now validates the review done by the Client's AI

# Other Services
